INTRODUCTION

This Report highlights the activities of the Transportation Professional Services Selection Board (TPSSB) during Fiscal Year 2012 in conjunction with the selection of consultants for Architectural/Engineering (A/E) projects processed through the TPSSB, for the Maryland Department of Transportation (Department), in conformance with applicable laws, regulations and internal guidelines.

The contents of this report have been organized under the following topical headings:

- Executive Summary
- Minority Business Participation
- Changes in Laws, Regulations, and Internal Guidelines
- TPSSB Membership and Composition
- Consultant Recommendations
- Certification for Consultant Services

Appropriate attachments have also been provided detailing Department Consultant Screening Committees and Negotiating Teams membership; consultant recommendations, including project and proposal data/time involved; projects certified by the Secretary of Transportation (Secretary) in accordance with the TPSSB statute for consultant services for Fiscal Year 2012.

EXECUTIVE SUMMARY

The major facts and conclusions contained in this report are as follows:

1. The TPSSB finalized 36 consultant recommendations, compared to 71 in Fiscal Year 2011. The total awards for these 36 recommendations amounted to approximately \$184.1 Million, compared to \$253 Million in Fiscal Year 2011.
2. Of the total 36 recommendations, all were in excess of \$300,000 and were based upon evaluation of technical proposals and negotiated prices.
3. The total time required to finalize recommendations on a negotiated basis averaged 17.6 months, with 17.2 months consumed by Transportation Agencies and .4 months by the TPSSB. (These averages exclude major delays attributable to non-selection related matters). This is decrease under Fiscal Year 2011 of 4.2 months in time consumed by Transportation Agencies and a decrease of .4 months for the time required by the TPSSB.

MINORITY BUSINESS PARTICIPATION/DISADVANTAGED BUSINESS PARTICIPATION

Of the 36 projects in Fiscal Year 2012, 104 firms were used as subcontractors, and of those subcontractors, 78 were MBE/DBE firms.

CONSULTANT RECOMMENDATIONS

During Fiscal Year 2012, the TPSSB met 8 times, and processed 36 recommendations on a negotiated basis involving 26 consultant firms compared to 19 consultant firms in 2011. The total cost of the 36 finalized recommendations amounted to approximately \$184.1 Million.

Detailed information on the 36 finalized recommendations is provided as Attachments II - V. An analysis of the data on these Attachments, and other information available in TPSSB files, reveals the following:

1. Projects by Cost Categories:

Costs for each of the 36 recommendations for which consultants were recommended on a negotiated basis ranged from approximately \$300,000 to \$31,500,000.

The following tabulation summarizes these recommendations by cost categories:

Cost Category \$	No. of Recommendations	% by No. of Recommendations
200,001 – 300,000	1	2.8 %
300,001 – 500,000	0	0%
500,001 – 1,000,000	4	11.1%
1,000,001 – 10,000,000	23	63.9%
10,000,001 – 60,000,000	8	22.2%
TOTAL	36	100%

Contracts range from 5 to 8 years

2. Recommendations by Technical Proposals/Negotiated Prices:

36 recommendations were finalized based on evaluation of technical proposals and negotiated prices.

Negotiating Teams were able to negotiate a satisfactory contract with the top-ranked firms in all instances at a price, which they determined to be fair, competitive and reasonable.

There is a possibility that the TPSSB could consider a Transportation Agency's recommendation of the award of a contract to the second highest ranked firm. In addition, in cases where simultaneous negotiations with two or more firms for the awarding of identical open-end contracts from one reduced candidate list have not been satisfactory, the Transportation Agency may negotiate with, and recommend the award of a contract to a lower ranked firm. Neither of these situations occurred in Fiscal Year 2012.

3. Time Involved in Finalizing Recommendations:

Of the 36 recommendations, which were finalized on a negotiated basis, the total time required for a selection ranged from 9.3 to 47.3 months, depending on the nature and complexity of the project, averaging 17.6 months per selection, excluding major delays attributable to non-selection related matters. This was measured from solicitation of interest from firms, to final approval by the TPSSB. Related actions occurring during this period were as follows:

An average of 17.2 months per selection was consumed by appropriate Transportation Agencies in making specific selection recommendations to the TPSSB. This covered time necessary for public announcements for solicitation of interest from firms, evaluation of candidate firms, any de-briefings of firms not on reduced candidate lists, preparation of requests for technical and price proposals, and evaluation of these proposals and price negotiations in order to make selection recommendations to the TPSSB.

An average of .4 months per selection was required for the TPSSB to review and finalize all selection recommendations made by Transportation Agencies, including waiting periods necessary for public announcements for TPSSB meetings, and any de-briefings through Transportation Agencies of firms not recommended for selection.

CERTIFICATION FOR CONSULTANT SERVICES

During Fiscal Year 2012, the TPSSB received and recorded a total of 22 certifications by the Secretary involving A/E services, which at the time of certification could not feasibly or economically be provided through existing in-house resources, and appropriate Transportation Agencies were directed to proceed with the selection of consultants.

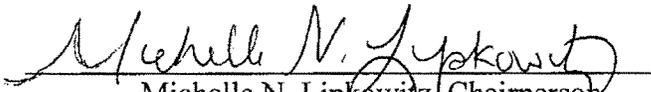

Detailed listings of such projects recorded by the TPSSB as certified by the Secretary are provided as Attachment VII.

Report of Activities for Fiscal Year 2012 submitted and approved at the TPSSB meeting held on May 2, 2013.
